

CHECHEN STATE UNIVERSITY

CHECHEN STATE UNIVERSITY

ABOUT RUSSIA

Russia spans from Eastern plains of Europe to landscapes of Asia. The country covers 17 075 400 square kilometers, making it the largest country in the world. The official language is Russian, and there are about 100 languages spoken among 160 ethnic groups living within Russia. This makes Russia an incredibly diverse country which welcomes people of many nations and religions.

Russian higher education is famous for its specialization in science and research. It is said that over a quarter of the world's scientific literature is published in Russian – a surprisingly uniform language despite its enormous spread across the country and people. It is also one of the six official languages of the United Nations.

ABOUT GROZNY

Grozny is the capital of the Chechnya Republic, standing on both banks of the Sunzha River, the tributary of the Terek River. As of 2019, the population of Grozny is about 300 000 people, with an area of 324 sq. km.

Grozny is a recently renovated city with many new modern buildings, business centers and outstanding office buildings. The construction of new facilities does not stop here for a single day. In Grozny, streets were rebuilt to meet high standards of quality, which is not found in every city in the North Caucasus. Regardless of whether you are just passing through Grozny or come there for a visit, you will feel at peace because of the city's and inhabitants' hospitality.

Transportation is available at any time of day, and you are free to go anywhere in Grozny.

In Grozny, over the past decade many new schools and universities have been reopened. Education in the city is reaching a new level, which attracts students of all ages to come there.

ABOUT GROZNY

ABOUT CHECHEN STATE UNIVERSITY

Chechen State University opened on 7th of February 1938. Currently around 15 000 full-time and part-time students are getting education at CSU within ten faculties and four institutes.

The University works hard to create an environment where students can not only receive quality education, but also express themselves. Student life at Chechen University is filled with exciting events full of creativity and scientific inquiry.

Students of CSU were the winners of the competition “Development programmes of student communities” conducted by the Ministry of Education and Science of the Russian Federation three years in a row. As part of the innovative programmes, the University successfully realised a number of projects and opened new facilities like International Youth Centre, School of Student Leadership, Recording Studio, Healthy Lifestyle Centre and Student Evaluation Commission “For Quality Education”. For those keen on sports there are 14 sporting societies, a student sports club, and a swimming pool.

The education process incorporates modern technologies. The classrooms are equipped with interactive whiteboards, hardware essential for video conferencing, extensive resources of an online library, both Russian and international databases available for students. The university administration assigns great importance to the development of academic mobility of lecturers and actively works on inviting Russian and foreign explorers who are well-known in the scientific and educational environment. The University offers different areas of training in specialized Bachelor’s and Master’s programs, as well as other Postgraduate courses.

- Republican TB Dispensary,
- 2nd Children's Clinical Hospital,
- Mental Hospital,
- Skin and Venereal Diseases Dispensary,
- Republican Children's Clinical Hospital.

ACCOMMODATION

Accommodation is one of the most important factors when it comes to living abroad. Russia provides its students with very good facilities for living. All foreign students are welcome to stay in student hostels in rooms for 2-3 people. The rooms are equipped with all necessary furniture and bedding. In winter, university hostels are centrally heated, and the average temperature indoors is +25°C.

The student hostels have a gym, classrooms for studying, laundries, kitchens and living rooms for students to spend time together, well maintained toilets and bathrooms with showers of running hot and cold water. Unlike many European countries, there is a kitchen on a shared basis for several rooms, wherein students can prepare meals according to one's individual tastes and preferences. A wide variety of food from all over the world can be found in local stores, supermarkets and restaurants, which gives foreigners an excellent opportunity to stick to the same cuisine that they are accustomed to.
