LNMU

LVIV NATIONAL
MEDICAL UNIVERSITY
named after Danylo Halytsky

RECTOR'S WORD

Greetings from
Borys Zymenkovskyi

Rector of the University

Dear Applicant!

As the Rector of Danylo Halytsky Lviv National Medical University, it is my pleasure to welcome you in one of the oldest European universities, and we are proud to offer our medical, dental, pharmaceutical and postgraduate education programs. The University offers a convivial collegial environment which appreciates human values and desire to learn, as well as an idea of living and learning together. New computerized technology, modern individual electronic communications, a newly introduced course of studies in English language, a significant number of university participants in international academic conferences, cooperation with other universities in creating sophisticated programs of medical studies in pair with those of Europe - all of these things are advantages of our University.

Social reforms in our nation have influenced not only on the practice of medicine, but also on our medical education. We have always endeavored to change with changing times but as often were the initiators of reforms in higher medical education. This not only aided us in withstanding difficult times but also allowed us to move ahead.

I am sure you will feel at home here, and your decision to choose our Danylo Halytsky Lviv National Medical University is the right one.

Sincerely yours,
Prof., Dr. Borys S. Zymenkovsky
Rector of Danylo Halytsky Lviv National Medical
University

**LVIV
NATIONAL
MEDICAL
UNIVERSITY**

I FACULTIES

Medical Faculty No. 1 and No. 2

Nowadays, the Faculty of Medicine of the University is one of the leading medical educational institutions of Ukraine for the training of specialists in the educational qualification level “Bachelor” in specialty “Medicine” with a glorious history and traditions that are organically interwoven with innovative approaches to the educational process and integration of modern technologies into it.

MEDICAL

Students are trained in Ukrainian, Russian and English mediums of instruction. Students from all over the world are highly welcomed to appreciate the quality of classical medical education. Currently, students from Ukraine, Russia, the USA, Israel, Uganda, France, Bulgaria, Turkmenistan, Uzbekistan, Jordan, Syria, Iraq, Iran, India, Pakistan, Palestine, Tunisia, Lebanon, Morocco, Azerbaijan, Sudan, Afghanistan, Algeria, Kuwait, Cote d'Ivoire, Saudi Arabia, Mauritius, Bahrain, Papua New Guinea and many other countries are trained at the Medical Faculty.

Internationally accepted programs and curricula approved by the Ministry of Education and Science of Ukraine, as well as innovative technologies like online student workshops, webinars, with the use of multimedia systems, interactive web resources and video collections, are used in the process of preparing future doctors.

Faculty of Dentistry

The Faculty of Dentistry has existed as a separate unit since 1958. Today the Faculty of Dentistry has 10 departments. Almost 1000 students are studying at the Faculty of Dentistry. The Faculty trains specialists in the educational qualification level “Specialist” in accordance with the educational and qualification characteristics and educational-professional curriculum program of the specialty “Dentistry”.

Students have an opportunity to undergo clinical training using modern advanced methods of diagnosis, prevention and treatment of patients with dental care. In the educational and scientific medical diagnostic process, possibilities of modern computer technology and latest equipment are widely used.

Faculty of Pharmacy

The Faculty of Pharmacy trains specialists in the fields of pharmacy. Now 300 students of full-time students study at the faculty, including international students. Foreign students study in Russian and English. After graduating from the five-year term, graduates receive the qualification "pharmacist" or "clinical pharmacist" with further postgraduate training.

The Faculty employs over 100 faculty members who are highly qualified specialists.

Educational, methodological, scientific and educational work is concentrated on three profile departments:

- Pharmacy,
- Clinical Pharmacy,
- Pharmaceutical Chemistry.

The organization of the educational process and material base of the faculty correspond to the world standards, for example, educational rooms and laboratories are fully equipped for conducting practical classes, computer classes and lecture auditoriums.

The Faculty creates conditions for research work, students' scientific circles work, students take part in scientific conferences, student competitions, which take place at our university and other universities of Ukraine. An interesting and multifaceted student life is organically complemented by the activities of art groups and sports sections.

Faculty of Postgraduate Education

Faculty of Dentistry has existed as a separate unit since 1958. Today the Faculty of The Faculty of Postgraduate Education was established in 1955. There are 22 departments and 16 courses with branches. Primary specialization in internship is carried out in 29 programs, advanced training and retraining of specialists - in 84 specialties. The contingent of listeners in all training cycles is over 11,000 people.

Foreign citizens who are not proficient enough in Ukrainian language can enter a one-year Preparatory course which includes an intense language program, as well as some basic training in Chemistry, Biology and Physics.

The University works closely with different organizations in Poland, Jordan, Egypt, India, Bulgaria, Nigeria, Ghana, Zambia and other countries. The University scientists are working on joint scientific topics with leading scientific and educational institutions of Germany, Hungary, the USA, Canada, Australia, the United Kingdom, the Netherlands, France, Sweden, Poland.

Accommodation

The students' hostels are located near the main academic buildings. Students can live in 8 hostels which have everything needed for studying (internet clubs and reading rooms), everyday life (canteens, cafes, sewing and footwear workshops, barber's and laundry rooms), and more.

Sports Camp «Medik»

The Student Sports and Recreational Camp «Medik» was founded in 1972. The Camp is located in a beautiful pine forest on the shores of one of the most charming Shatskyi Lakes - Lake PISOCHNY. In summers, from June to August, everyone can restore one's health and have a great time.

Students and teachers of the University have the opportunity to relax in 16 wooden cottages of 4 rooms in each or in a three-story brick-built dormitory for 84 places with amenities in two- and triple rooms.

The camp has a whole range of sports grounds, where health-fitness and training sessions are provided by campers, as well as athletes-students of the national teams of the University are trained for various sports. All conditions for fans of mini-football, basketball, volleyball, tennis, table tennis, chess, badminton, swimming, boating, walking on the lake on catamarans, fishermen, certain types of athletics, etc. are created here.

ABOUT THE CITY

Lviv is a city in Western Ukraine, the administrative center of the Lviv region, a cultural, educational, scientific, and tourist center of the country, a major industrial center and a transport hub.

The population of Lviv is about 728,000 (2016), the area - 192 sq. km.

Lviv is located in the central part of the Lviv region, about 600 km west of Kyiv and 70 km from the border with Poland. The climate in Lviv is moderately continental, humid. The average temperature in January is -3oC, and in July it is +19.5oC.

Lviv is one of the most important cultural centers in Ukraine. The city is known as the center of art, literature, music, and theater. More than 100 festivals are held annually. There are more than 50 museums and 10 theaters in Lviv. This city is also one of the most important centers of education in the country.

Lviv International Airport, located 6 km from the city center, offers flights to such cities as Vienna, Istanbul, Munich, Warsaw, Rome, Madrid, Kyiv. The slogan of Lviv is "Lviv - Open to the World".

The bicycle infrastructure is actively developing. Today, the city has more than 70 km of bicycle paths. Lviv is famous for its cafes, pastry shops, and restaurants. Compared with other large cities of Ukraine, Lviv has a lower crime rate. Lviv has more than 20 parks and green areas, 2 botanical gardens, and 16 natural monuments.

Most cafes, restaurants, and hotels offer free Wi-Fi. It is also available in the main squares of the city, at the airport and the train station.

Lviv is a city which is difficult to forget. With its spectacular architecture, Lviv is the most beautiful city in Ukraine and one of the most beautiful ones in Europe.

STUDENT LIFE

Studying at the Danylo Halytsky Lviv National Medical University means much more than staying within historical buildings, meeting prominent lecturers and attending well- prepared classes. It also allows one to have a unique experience of living in a beautiful campus, being part of lovely university traditions, meeting other people and making friends. The University does its best to make its students feel at home, as members of a large family, meeting together to celebrate important dates and events.
